TALENS ART CREATION GOUACHE

Talens Art Creation gouache is an opaque paint that is thinned with water, with which you can paint matt sections without leaving stripes. Because this paint dries within several minutes, it is highly practical to use. The paint can be used on many grounds, such as paper, carton and wood. Gouache is known for its colour intensity.

TALENS ART CREATION BETON PASTE

Beton Paste is an opaque paste, which gives a rough concrete look to a wide range of surfaces. This tough, rough look fits in well in today's modern interiors. Beton Paste is more a paste than a paint and is only suitable for indoor use. To create a rougher surface use a palette knife, and for a smoother finish use a brush or sponge. It is not necessary to apply an undercoat on the ground. It creates the rough and hard ground of concrete and is available in 5 attractive colour tints.

TALENS ART CREATION DECOUPAGE

Decoupage is a glue and paint in one. It is suitable for making collages or decorations with napkins (only the upper layer), cuttings from newspapers, magazines, photos and paper. Particularly thin paper such as crepe paper gives the best results. The decoupage glue is suitable for grounds such as wood, cardboard, clay, plaster, papier-mâché, etc. A special version is available for textiles.

TALENS ART CREATION BRUSHES

Talens Art Creation has a wide range of quality brushes for different types of paint and techniques. The brushes vary in size, hair type and shape.

Hair type

For the brushes of Talens Art Creation both natural and synthetic hair is used:

- **Hog bristle** (bristle) is a sturdy type of hair which is used for thicker paints, such as oil and acrylic colours. The hair is strong and resilient and leaves a brush stroke in the paint.
- **Ox-ear hair** is a strong and durable soft hair type that is suitable for all types of paint, and particularly if you don't want to see a brush stroke or if you use the paint thinned. As ox-ear hair can absorb a great deal of thin paint, this brush is also suitable for water colour and gouache.
- **Filament** consists of synthetic fibres (polyester) and is suitable for all types of paint. Due to the strength and resiliency of polyester, filament brushes are highly suited for oil and acrylic colours. As the filament brush absorbs moisture well, it is also suited for water colour and gouache.
- **Pony hair** is an affordable soft type of hair that absorbs water well. Pony hair brushes are therefore ideally suited for water colour and gouache.

TALENS ART CREATION STRETCHED CANVAS

Talens Art Creation offers a range of universally prepared canvases that are suitable for both oil and acrylic colours. The canvas has been stretched on a stable wooden frame to avoid warping and bending. With larger sizes diagonal and cross laths give the frame extra rigidity. The wooden components in these canvases are FSC®-certified.

The canvases are available in various sizes and come in two versions: standard (2 cm thick) and extra thick (3D, 4 cm thick).
